SUMMARY

Full stack developer with an emphasis on front-end technology. I use tools and technologies such as TypeScript, React, Python, React Native, SQL and Node to develop a variety of products. I have a passion for solving problems, automation and creating designs. I am a big fan of efficiency and I love tackling performance issues. I've showcased these strengths through personal projects. I am driven to learn, grow and excel in the world of development.

EXPERIENCE

Lead Pharmacy Technician | Walmart Inc. | Plano, TX | July 2015 - Present
· Developed a web and mobile application to improve the ordering process.
· Created a barcode-based inventory system to make ordering and inventory more efficient.
· Oversaw the process of inventory in the pharmacy.
· Resolved third-party rejections that made medications affordable for patients.
· Provided exceptional customer service.

Assistant Manager | Taco Bell | March 2013 - July 2015
· Supervised 30 employees in a fast-paced work environment.
· Created employee schedules and organized management meetings while reducing labor costs.
· Trained new employees and managers on various job duties.
· Ordered supplies and food products while maintaining minimum cost of goods.

PROJECTS

Simply RX Supplies
· Designed a web application that can be used to search through information for ordering pharmacy supplies.
· Implemented a barcode generation system that can facilitate ordering supplies through the use of barcodes.
· Integrated a 2D barcode system for ordering multiple items at once.

Simply RX Supplies Mobile App
· Used React Native to create a mobile app version of the Simply RX Supplies web application.
· Created a sharing system so that users can share item information and barcodes with ease.

Sou's Art Gallery
· Used React.js to create an art gallery that showcases artwork as reusable components.
· This website serves as a love letter to my mother.
